> FreshaFlora

FreshaFlora eliminates the need to change water in flower vases. The microbial action of the 99.9% pure silver disc destroys fungal, viral and bacterial micro-organisms, to prevent premature rotting of the flower stems. This extends the life of the flowers and prevents foul smelling water. FreshaFlora is re-useable and can be used with flower food.

> Dossil Hexapus

There is nothing quite like the taste of home-grown vegetables picked straight from your garden. However, vegetables still need washing and preparing before eating and kitchen sinks can become blocked with soil and vegetable peelings. This product fits snugly over plug holes to prevent them becoming blocked. Made from silicone and available in white, yellow and aqua, it has six suckers on its underside.

> Móa Balm

Whether you've been planting, weeding or digging, this balm can be used to moisturise your hands and heal any cuts, grazes and bites you may have. It is 100% organic, and its key ingredient, yarrow, is renowned for its healing properties. This balm is effective in harsh winds or for sun-damaged skin. It also contains almond, coconut and tea tree oils.
